About Logan

Logan provides specialized downhole tools and services to oilfield service companies, drilling contractors and exploration and production operators. It is organized into three classifications:

- Manufacturing and sales of fishing and intervention tools, including retrieving, stroking, and remedial tools and power swivels used in well workover, intervention, drilling, and completion activities (Logan Oil Tools, Inc.); and high-performance poly-crystalline diamond compact (PDC) cutters and bearings (Logan SuperAbrasives);
- Manufacturing and sales of completion products and services including packers and bridge plugs, (Kline Oilfield Equipment, Inc.); proprietary multi-zonal completion technology and conventional completion products (Logan Completion Systems Inc.); and patented products and services that used to optimize production in sand-laden, heavy oil wells (Logan Scope);
- Rental of specialty drilling and workover tools including drilling jars and the Xciter vibration tool and fishing and coiled tubing jars (Logan Rentals and Logan Sup-R-Jar).
