

# CPW Perf Wash Assembly

## OVERVIEW

The Logan Kline Tools PPI-CPW Perf Wash packer system is a compression set tool designed to isolate perforations or zones for washing or acidizing. The size of the zone can be adjusted to the desired length. The PPI-CPW Perf Wash tool sets and releases with ¼ turn. Hydraulic hold down slips, allow for a straight pull to release. The automatic J-Slot allows for the packer to latch back in the run-in position.

## FEATURES

- Adjustable Spacing
- Integrated Unloader
- Rugged Carbide Slips

Casing	Weight	Max.O.D.	Seat Diameter	Connections
