

OVERVIEW

Logan's Scope Sure Seal Stuffing Box is most effective in wells with viscous heavy oil and high sand cuts. It is designed to prevent debris from reaching primary and secondary packing in severe wells. The Sure Seal Stuffing Box has been proven to increase runtimes and reduce environmental issues to help work towards achieving zero impact on the environment.

FEATURES

- Exceeds 2,000 psi pressure rating
- 2-7/8" or 3" LP connections
- Compact design
- Increase runtimes
- Reduces environmental issues
